**FUNERAL WEDNESDAY AT 10:30** 

John A. Eaton, a life long resident of Posey township, died this morning unexpectedly, at the home of his daughter Mrs. E. C. Linville, where he has been residing for several months. Mr. Eaton was in his 88th year, and would have reached 88 next month.

The deceased was born and reared in Posey township where he resided all of his life. In his younger days he was a farmer and in more recent years lived in Arlington, until his wife died a few years ago, when he moved to make his home with his daughter, Mrs. Linville, southwest of Arlington.

He arose this morning and dressed, but about 7:30 was taken suddenly ill, and went to bed, where he died at eight o'clock. The deceased is survived by two sons and two daughters, who are W. H. Eaton of Gwynneville, John M. Eaton of Arlington, Martha A. Hufferd of Posey township, and Mrs. Linville. He also leaves a sister, Mrs. Phoebe

Moss of Gwynneville. The funeral services will be held Wednesday morning at 10:30 at the M. E. church in Arlington, with burial in the Arlington cemetery.

Cold Wave Will be Ushered in by Strong Wind Tonight

ESTABLISHED AS A WEEKLY: THE WHIG, 1840; THE REPUBLICAN, 1852.

A cold wave is due to arrive here tonight, according to the weather predictions sent out today by M. F. Mervin, in charge of the forecasting for this vicinity. He predicts that the temperature will drop to from 5 below to 5 above before morning, and with the continued cold Tuesday. The cold wave will be ushered in by strong northwest winds, with possible snow flurries in the northern part of the state. The same weather prediction holds true for Indiana, Kentucky, Illinois and Ohio which shows that it is more than a local affair.

Goal Throwing and Team Work **Winning Combination** 

The Newcastle high school basketball team suffered defeat on their own floor Friday night, when the Rushville high school team played in great style, winning 28 to 21.

The local team ran true to form, and displayed better team work than usually seen on the local floor, and after first getting a lead early in the game, they were never headed by Newcastle. It was the first defeat this year for the Newcastle team on their home floor.

Rushville started out fast and soon had a five point lead which they maintained throughout the first half, with the score ending 16 to 11 when the first half was over. At the beginning of the second

half Newcastle showed a reversal of form and made a big stride, coming of within one point of tieing the score. When they were within one point of tieing the score, Newcastle missed three chances on foul goals.

# Extraordinary Values Of The Season

It is our custom to clear out all Winter Garments at this time of the year in preparation for the advent of a new season. We desire to state that the present event surpasses all others, in that the remarkable new low prices we have been offering are still further lowered, making the values more powerful and more interesting than ever before; and, above all, the outstanding feature is the Mauzy quality in every garment.

Vegetables are just as necessary a | erally one of the cheapest of the part of the daily meal as bread, if the body is to be kept strong and healthy. Housekeepers sometimes forget this in winter when fresh vegetables are hard to get and the family is tired of all the kinds on hand. Too often the diet is allowed to become one of the meat-bread-and-potato type, which does not give children all the things they need to make them grow and develop normally, and which is unsatisfactory for adults as well. It needs to be supplemented by plenty of milk, eggs and other vegetables be-

Cause of "Tired Feeling." "Spring fever," or the tired-out feeling that comes at the end of winter nutrition experts lay to the lack of sufficient fruits and vegetables in the winter diet. Certain it is that many persons have an unusual craving for "greens" in the spring which they probably would not have if meals l during the winter included an abundance of vegetables, and when vegetables and fruits are entirely lacking in the late winter, as in some northern regions, severe illness is often

Preparing the familiar kinds of vegetables in more appetizing ways that are perhaps new to the family and teaching the children to eat kinds that they are prejudiced against are at least two ways in which the housekeeper can solve her problem of what to have for dinner in winter.

Moreover, many persons make the mistake of cooking vegetables too long. This makes those with delicate flavors tasteless, develops strong flavors too much, destroys the agreeable texture of some, causes others to lose their attractive coloring, and in most cases cooks out too large a proportion of the mineral salts, one thing which makes vegetables especially valuable as food. If the strong ones, such as onions, are cooked in a rather large quantity of water in an uncovered vessel, they will have a more delicate flavor. The following ways of cooking some of the winter vegetables are the onion, stirring it all the time to recommended by home economics specialists of the United States Depart-

MRS. NANCY SHARP, of Los Angeles, who says she received one of the greatest surprises of her life when Tanlac completely restored her health after she had almost lost hope of ever getting well. Declares she suffered for twelve long years.

"After seeing the wonderful results my husband obtained from Tanlac I began taking the medicine myself, and now we both agree that it is the grandest medicine on earth," said Mrs. Nancy Sharp, a prominent and highly esteemed resident of Los Angeles, Calif. living at 921 Camulus street, whose husbanl is proprietor of the Merchants' Express Co.

"During the twelve years that I suffered with indigestion and stomach trouble I tried nearly every medicine I heard about, but nothing helped me and I lost faith in everything. So my wonderful restoration to health has been one of the greatest surprises of my life.

"I began to feel an improvement on finishing my second bottle of Tanlac, and now after taking six bottles I am like a new woman. I have a splendid appetite, eat three hearty meals a day, enjoy them thoroughly and am never troubled in the least with indigestion or any other disagreeable after effects.

"Before taking Tanlac most everything I ate caused my stomach to rebel and I would suffer for hours afterwards. I was so dreadfully nervous that many nights I never closed my eyes in sleep, but now I am not the least nervous, and I sleep like a child. My strength has been wonderfully increased, and I have much more energy.

"I wish it was so everybody troubled like I was knew about this wonderful medicine."

# The Oil Well and the Oil Whale

HE miracle of mechanical development which has revolutionized the world and has changed man's habit of life, even in the remotest wilderness, was made possible by the discovery of oil in 1858, and the development of oil refining, in which the Standard Oil Company was a pioneer and leader.

With the development of the petroleum industry came a cheap, efficient, easily secured lubricant, capable of keeping the bearings of the heaviest machinery running cool and without friction.

It is the thin film of mineral oil which has made possible the great mechanical inventions of the modern world. When population was scarce and widely scattered, the surplus animal and vegetable fats were sufficient to grease the simple machinery of that day, but with the vast development of mechanical power these sources of lubricants would be quite inadequate.

The old system and the new may be visualized by comparing the "grease rag" of Madeira with the marvelous automatic force feed lubrication in your automobile., In Madeira the native walks ahead of his team, smearing the cobblestones with a grease rag, while you drive comfortably, because petroleum has made automatic lubrication possible.

Correct lubrication is the life of industry, and correct lubrication depends entirely upon petroleum. All other products of crude oil, while adding much to the prosperity, comfort and gayety of the world. could be given up without the disastrous consequences which would follow the elimination of the petroleum lubricants.

The Standard Oil Company (Indiana) manufactures a large number of oils and greases, each designed to meet an especial need. To serve industry better, the Company maintains a staff of lubricating experts whose business it is to study the problems of indivividual industries, and determine the lubricants necessary to increase the efficiency of machinery. and to prolong its life.

The Standard Oil Company (Indiana) is proud of its position as the manufacturer of the lubricants used by so large a number of important industries throughout the nation.

Many Important College Games Will Take Place Shortly After Beginning of The New Year

> By HEZE CLARK (Written for United Press)

Indianapolis, Ind., Dec. 27.-With the Christmas holiday vacation here the college basketball teams of Indiana are not halting their practices but are continuing to work for the games important games that are scheduled to be played in January. Some of the college teams have vacation barn storming trips planned in which they will clash with athletic elubs and Y. M. C. A. quintets. Other college coaches will permit the athletes only a short visit home. and will have them back in college gymnasium for a series of hard work-outs during the vacation days when no thought will be given to studies and all time devoted to bas-

The state of Indiana holds the center of the basketball stage in the country for the wonderful organization of 534 high schools, which makes possible the greatest high school basketball tournament in the country that has developed material from which championship college teams are built. Wingate and Crawfordsville high schools in tournaments in Chicago and Cincinnati last year clearly demonstrated that the class of basketball played in the high schools of the Indiana prep schools was far superior to that played in other states.

It is no wonder that all Big Ten drainage commissioners of said counconference colleges fear Indiana and ty and they have filed their report and Purdue on the basketball floor. on the list for Indiana during January. Indiana meets Ohio State at Columbus on Jan. 8 and Northwestern plays at Bloomington Jan. 17. The next game will be with Minnesota at Minneapolis Jan. 21. Indiana and Purdue meet in Lafayette north of the southwest corner of the

Purdue plays Butler at Indianapolis Jan. 4. Purdue then starts its conference college games Jan. 11, meeting Northwestern at Lafayette Ohio State at Columbus Jan. 22 and Indiana six days later. Purdue will play Michigan at Lafayette Jan. 31.

Besides these conference games both Purdue and Indiana have games scheduled for next month with some strong non-conference

Early season dope indicates that Wabash and DePauw again are strong in basketball. The Em-Roes made a poor showing against both DePauw and Wabash, but Wabash had to work in its game with the Merchants Heat and Light company's team. These games with the strong independent club fives gives the college athletes real experience for the important college games.

Coach Howe's Earlham team another strong contender in the basketball championship race this season. Coach Thurber claims that he has a strong quintet at Franklin. # BOTH GLENWOOD TEAMS WINNERS

Varsity and Second String Victorious Over Orange, 18 to 11 and 16 to 14

### TEAM WORK IS IMPROVED

The Glenwood high school first and second teams were victorious over the two teams from the Orange high school at Glenwood Thursday night, 18 to 11 and 16 to 14, respectively. The first team game was fast and exciting and Glenwood kept a lead after the first five minutes of play. The first half ended 11 to 6 in favor of Glenwood. Fielding and Daily starred on the offense while Vandiver, Stamm and Hinchman played a strong defensive game. The home team showed improved team work after their defeat by Rushville and baffled the visitors many times with their clever passing.

The score and summary of the
first team games:
Glenwood (18) Orange (11)
M. FieldingFCoon
Stamm A. Snoddy
Dailey Friend
Vandiver Dawson
Hinchman May
Field goals, Fielding, Dailey 6,

Secretary of Treasury Houston Appeals to Senate Finance Committee Today

AGAINST SOLDIERS BONUS

Estimates it Would Cost \$2,300, 000,000 And Doesn't Know How To Meet Expense

Washington, Dec . 27.—Government economy, tax simplification and revision were recommended today by Secretary of Treasury Houston, to the senate finance com-

He made these appeals: reduction of the extreme surtaxes, substitute for the excess profits taxes, simplification of taxes upon corporations Houston opposed the increased surtaxes and declared a war tax rate of 331/3 percent was the highest that can be collected.

A higher rate, he declared meant more evasion of the law.

Houston opposed the soldier's bonus plan which he estimated would cost \$2,300,000,000 and possibly more and said he did not know how the government would meet this

Retail buying, he said, has been greatly stimulated by recent reductions. Building taxes, he stated, amounted to \$2,136,000 in November, 1920 as compared to \$1,340,000 in November 1919.

Taxes on near beer came to \$2,-980,000 in November 1920 as compared with \$2,716,000 in November 1920. Admission at club doors produced \$7,902,000 in November, 1920 and \$5,877,000 in the same month in 1919. Candy taxes jumped from \$6,-322,000 in 1919 to \$7,136,000 in

Union Services at First United Gary School in Posey Township Taught by Miss Sue Woods, Has Unique Distinction

DEMONSTRATION IS GIVEN

The Gary school in Posey town ship has the distinction of being the only one-room school in Rush county where hot lunch is served to the pupils every day.

It is due to the ingenuity and perseverance of Miss Sue Woods, the teacher, that such a service can be rendered, and it has been the source of comment among school officials all over the county.

The home economics course in the school, which is taken by four girls, is built up around the noon hot lunch service. There are twentyfour pupils in the school and every noon they enjoy a hot meal just the same as is they went home.

One corner of the room is curtained off and there on an oil stove the class of girls prepare the choicest morsels of food.

Last Friday, at the close of school before the Christmas vacation, several school officials were entertained at lunch to give a demonstration of what the home economics class is doing. W. E. Wagoner township principal, and T. R. Lee, township trustee were guests.

### MORE MEN THAN WOMEN HAVE APPENDICITIS

Medical reports show men are more subject to appendicitis 'although many sudden cases occur among women. It can be guarded against by preventing intestinal in fection. The intestinal antiseptic, Adler-i-ka, acts on BOTH upper and lower bowel, removing all foul, deeaying matter which might cause infection. It brings out matter you never thought was in your system and which may have been poisoning you for months. Adler-i-ka is EX-CELLENT for gas on the stomach. 227tf F. E. WOLCOTT, druggist.—Adv. 5

### VEGETABLES FORM ESSENTIAL PART OF DIET DURING WINTER

A Good Prescription -- Vegetables Every Day in Year.

Vegetables are just as necessary a part of the daily meal as bread, if the body is to be kept strong and healthy. Housekeepers sometimes forget this in winter when fresh vegetables are hard to get and the family is tired of all the kinds on hand. Too. one of the meat-bread-and-potato type, which does not give children all the things they need to make them grow and develop normally, and which is unsatisfactory for adults as well. It needs" to be supplemented by plenty of milk, eggs and other vegetables besides potatoes.

Cause of "Tired Feeling." Spring fever," or the tired-out feeling that comes at the end of winter nutrition experts lay to the lack of sufficient fruits and vegetables in the winter diet. Certain it is that many persons have an unusual craving for "greens" in the spring which they probably would not have if meals during the winter included an abundance of vegetables, and when vegetables and fruits are entirely lacking in the late winter, as in some north-

ern regions, severe iliness is often

Moreover, many persons make the mistake of cooking vegetables too long. This makes those with delicate flavors tasteless, develops strong flavors too much, destroys the agreeable texture of some, causes others to lose their attractive coloring, and in most cases cooks out too large a proportion of the mineral salts, one thing which makes vegetables especially valuable as food. If the strong ones, such as onions, are cooked in a rather large quantity of water in an uncovered vessel, they will have a more delicate flavor. The following ways of cooking some of the winter vegetables are recommended by home economics specialists of the United States Depart-

ment of Agriculture: Cabbage has long been a winter standby, but many persons do not like it because it is often cooked until it it because it is often assa. It is gen-

erally one of the cheapest of the winter vegetables, and also one of kidneys. My back was lame and sore the richest in calcium (lime) and and when I stooped, sharp cutting iron, substances that every one needs pains were unbearable, and felt as to keep the body in good working or-30 minutes, in salted water. Make a white sauce from the butter, flour, milk, salt and pepper, and stir into it the grated cheese. In a greased baking dish place alternate layers of the cabbage and sauce, cover the top with bread crumbs that have been combined with a little melted butter or other fat, and bake for 15 minutes or until the crumbs are

browned. 🗻 Onions are another rich source of body-building mineral substances. To suit most persons they, too, need to be cooked in such a way that their flavor becomes milder rather than stronger. Here is a recipe for an appetizing soup, easy to make and so hearty that with a substantial dessert and plenty of bread and butter, it will be enough for luncheon or sup-

Salt and pepper as desired. Peel the onion under water to prevent the volatile substance from getting into the eyes, cut it into small pieces and cook it slowly and carefully in the fat. When the outon is tender increase the heat and brown the onion, stirring it all the time to prevent burning. Add the milk or other liquid and seasoning, bring the soup to the boil, and serve poured over a piece of toasted bread. If desired, especially if no milk is used sprinkle the toast generously with grated Swiss or American cheese.

MRS. NANCY SHARP, of Los Angeles, who says she received one of the greatest surprises of her life when Tanlac completely restored her health after she had almost lost hope of ever getting well. Declares she suffered for twelve long years.

"After seeing the wonderful results my husband obtained from Tanlac I began taking the medicine myself, and now we both agree that it the farm kitchen as a workshop. Whethis the grandest medicine on earth," said Mrs. Nancy Sharp, a prominent and highly esteemed resident of Los Angeles, Calif. living at 921 Camulus street, whose husbanl is proprietor of the Merchants' Express Co.

"During the twelve years that I suffered with indigestion and stomach trouble I tried nearly every medicine I heard about, but nothing helped me and I lost faith in everything. So my wonderful restoration to health has been one of the greatest surprises of my life.

"I began to feel an improvement on finishing my second bottle of Tanlac, and now after taking six bottles I am like a new woman. I have a splendid appetite; eat three hearty meals a day, enjoy them thoroughly and am never troubled in the least with indigestion or any other disagreeable after effects.

Before taking Tanlac most everything I ate caused my stomach to rebel and I would suffer for hours afterwards. I was so dreadfully nervous that many nights I never closed my eyes in sleep, but now I am not the least nervous, and I sleep like a child. My strength has been wonderfully increased, and I have much more energy.

"T wish it was so everybody troubled like I was knew about this wonderful medicine."

While the kitchen is the center and workshop of the home, its work also extends more or less to other parts of the house. In planning or building a home it is of greatest importance that the relation of the kitchen to the other rooms be considered. The kitchen work is most closely associated with the pantry, the dining room, and the

Using Kitchen Space.

Space should be provided in the kitchen and within easy access of the pantry and dining room for the worktable, sink, stove, ice box, and also for several chairs of different heights. One should be a rocker, in which the house wife can rest while waiting for the other cleaning equipment may be con-veniently stored in this room or a closet water to heat or for bread to bake. It is also desirable that provision be made for filling the ice box from eitlier the outside of the house or the entry, bathroom on the ground floor should so that the person filling it will not be not open directly into the kitchen or obliged to enter the kitchen. This will save much mopping and cleaning, Refrigerators can be purchased fitted with a door on the side or back of the ice chamber, and an opening corresponding to this door may be cut in the wall of the house and the chest filled from the outside. If a screen is provided the door may be left open in winter so that the food may be kept cold without ice. When this is done

# The Oil Well and the Oil Whale

HE miracle of mechanical development which has revolutionized the world and has changed man's habit of life, even in the remotest wilderness, was made possible by the discovery of oil in 1858, and the development of oil refining, in which the Standard Oil Company was a pioneer and leader.

With the development of the petroleum industry came a cheap, efficient, easily secured lubricant, capable of keeping the bearings of the heaviest machinery running cool and without friction.

It is the thin film of mineral oil which has made possible the great mechanical inventions of the modern world. When population was scarce and widely scattered, the surplus animal and vegetable fats were sufficient to grease the simple machinery of that day, but with the vast development of mechanical power these sources of lubricants would be quite inadequate.

The old system and the new may be visualized by comparing the "grease rag" of Madeira with the marvelous automatic force feed lubrication in your automobile.. In Madeira the native walks ahead of his team, smearing the cobblestones with a grease rag, while you drive comfortably, because petroleum has made automatic lubrication possible.

Correct lubrication is the life of industry, and correct lubrication depends entirely upon petroleum. All other products of crude oil, while adding much to the prosperity, comfort and gayety of the world, could be given up without the disastrous consequences which would follow the elimination of the netroleum lubricants.

The Standard Oil Company (Indiana) manufactures. a large number of oils and greases, each designed to meet an especial need. To serve industry better, the Company maintains a staff of lubricating experts whose business it is to study the problems of indivividual industries, and determine the lubricants necessary to increase the efficiency of machinery; and to prolong its life.

... The Standard Oil Company (Indiana) is proud of its position as the maguiacturer of the lubricants used by so large a number of important industries throughout the nation.

College and High School Basketball Teams Will Continue Practice and Games

534"H. S. TEAMS IN INDIANA

Many Important College Games Will Take Place Shortly After Beginning of The New Year

> By HEZE CLARK (Written for United Press)

Indianapolis, Ind., Dec. 27.-With the Christmas holiday vacation here the college basketball teams of Indiana are not halting their practices but are continuing to work for the games important games that are scheduled to be played in January. Some of the college teams have vacation barn storming trips planned in which they will clash with athletic clubs and Y. M. C. A. quintets: Other college coaches will permit the athletes only a short visit home and will have them back in college gymnasium for a series of hard work outs during the vacation days when no thought will be given to studies and all time devoted to basket ball.

The state of Indiana holds the center of the basketball stage in the country for the wonderful organization of 534 High schools, which makes possible the greatest high school basketball tournament in the country that has developed material from which championship college teams are built. Wingate and Crawfordsville high schools in tournaments in Chicago and Cincinnati last year clearly demonstrated that the class of basketball played in the high schools of the Indiana prep schools was far superior to that played in other states...

Pictures That Please TONIGHT AND TUESDAY

"When I Hypnotise a Man, I Alone Am His God!"

It was a deadly challenge. And the fight was waged in silence in the mystic hour before dawn. Dared he look into the trusting eyes of his love, or was he doomed?

What Happened? You'll Never Guess! Come and See!
